

Sort Gate Pricing (Revision # 9, September 2018)

Photocells not included

Regular/Afi Gate with only one Gate for Sorting; either Left or Right		\$ 12,359		
Regular/Afi Gate with two Sort Gates - Left and right		\$ 13,495		
Faria Gates including all Premium Features		\$ 18,860		

Standard Design Features of all Gates

Stainless Floor Antenna				
11 ga instead of 14 ga (Germania) structural tubing				
No Photo Cells; buy from Afi together with the other electronics				
Mounting brackets for (3) Photo Cells; horizontally and vertically adjustable				
Pressure Regulator for higher or lower pressure for the Gate Cylinders				
2.5 x 2.5 x 11 ga Actuator Cross Bar at Entrance Gates Instead of the original Germania 1" x 2" x 16 ga)				
Conceal all Hoses and Wires in stainless conduit; Wires for phot cells are pre-installed although without the Photo Cells				
24 VDC MAC Valves, one per cylinder				
Free-standing stainless Support Structure for Afi electronics (Regulator and MAC Valves go into this Afi				

Custom Features we developed for the Fariah Bos. in Texas	Incl. in Fariah Gates?	Included with Regular Afi Gates?	Additional Cost if you want this Option	Comments
Hard Chrome plated Cylinder shaft at Entrance Gate	Yes	No	\$ 64	Faria Gates cycle 12,000 to 15,000 times per day
Main Section of structure 4 ft longer (22 ft instead of 18 ft)	Yes	No	\$ 640	No-miss identification in combination with the additional Photo Cells
(4) Germania/DeLaval Style Photo Cells instead of just (2)	Yes	No	Not available; Buy proprietary cells from your local Dealer or directly from Afi	Afi now recommends (3) Cells, with each cell at double the cost as before.
81" vs 78" overall height	Yes	No	\$ 50	Don't know why the Faria Bros. asked for this; may be to accommodate tall people
(2) 'Faria-Style' - massive - knuckles at Entrance Gates	Yes	No	\$ 490	These knuckles take the greatest amount of stress
Modular Base made from 4" x 4" stainless tubing. Faria asked for this feature for easier handling and installation. Regular gates have foot plates underneath the vertical posts	Yes	No	\$ 3,087	Module base will be redesigned for next (2) Faria gates to bring the cost down
